HURRAH FOR WM. WARNER, the next governor of Missouri.

STAND UP FOR "Grand Missouri" and vote for WM. WARNER for governor.

SENATOR INGALLS announces that he will not accept the nomination for Congressman at Large.

The citizens of Kansas City tendered WM. WARNER, the next governor of Missouri, an ovation on his return to that city.

The Farmers' Alliance in this state will oppose a state ticket this year and the fight will therefore be very interesting.

The democrats are charging and proving fraud on themselves in the contest between NOOKS and MAYER. They claim that Nook's men stuffed the ballot.

When the Chicago convention assembled to name the McGinty of the democratic party, DAVID BISKETT HILL can console himself with the reflection that, "It might have been."

THE DALTONS against WM. WARNER. Would it not be a most remarkable reproach to the intelligence and good name of the people of this state if they were to elect the former instead of the latter.

The election of the democratic candidate for governor of this state this year would give that party 26 years of supremacy in the state. We submit to all fair minded men that it is time for a change.

The Republican State convention was entitled to 801 delegates. There were actually present 775, and it was therefore the largest delegate convention ever held at the State Capital.

Since the new chairman of the state committee hails from Sedalia, the hotel keepers of that place are no doubt rejoicing in the fact that they will "pull" the next state convention.

The signs of the times indicate the election of WM. WARNER for governor. FRANCIS was 5,000 votes short of a majority when he went in and there are more republicans in this state than there were four years ago.

The democrats in congress have set apart Friday nights for the consideration of pension bills, but instead of doing so the time is spent by the democrats in making sport of the old soldier. Not a bill has been passed.

Through the efforts of Maj. JOHN T. CLARK, of this city, our people have some prospects of listening to an oration from the Honorable JAMES F. INGALLS, of Kansas, on Decoration day. He has promised to come, if he does not sail for Europe before the day named.

The democrats who oppose DALTON are charging him with all manner of rascality. That will be handy for republican thunder after DALTON gets the nomination. The farmers ought to stand by him for the nomination because he is the first real farmer that they have ever had in the race.

As the democratic party in Missouri can not expect to remain in power for ever, we know of no better man in the state to make the change with than WM. WARNER, of Kansas City, and we think that all the fair minded democrats in Missouri should help elect him, and thereby advertise to the world that this is Grand Old Missouri, in politics, as well as in religion and natural resources.

The December end of the May and December aspirants for the presidential nomination on the democratic ticket, in Illinois, says he is satisfied with the state convention just held in that state. This shows that Mr. PALMER has been sent to the pension mon tree so often for his breakfast, that he has become very familiar with the adage: "He that expects nothing will get it."

Ohio, New York, Indiana and Colorado, for some reason are not giving General HARRISON their enthusiastic support. What objection have these doubtful states to the re-nomination of the president? Did General HARRISON voice the sentiments of the opposition when he said in the state convention, that he did not favor the re-nomination of General HARRISON, because he did not regard him the strongest candidate that could be named? There should be no lake

warm support given to the president in these states, because, if there is, he could not be elected. Speak out, gentlemen, and let the country know what your objection to General HARRISON is. Don't wait until he is nominated and then defeat him.

The newspapers that are howling that FILLEY is downed don't know the old man. For twenty-five years he has been the cunningest politician in the republican party of this state and has always floated to the top, even after the most vigorous buffetings. The man that announces that FILLEY is "crushed" cannot have lived in Missouri more than three weeks. Kansas City Star.

One of the most striking figures in the last Republican State convention was that of CHAUNCEY I. FILLEY. This is what Mr. E. C. KEMP, postmaster of Bucklin, said to the reporter of the Kansas City Journal: "Such a convention" he said "has never before held in the history of the republican party of this state. The talk about setting down on FILLEY is the very best. Every mention of the old man's name was greeted with cheers and he himself received a perfect ovation from the beginning of the convention to the end. He is a great man and he wanted nothing."

The chairman of the Civil Service association, Mr. GEORGE WILLIAM CURTIS, is opposed to Mr. HARRISON because he has permitted the postmasters throughout the Southern states to help whoop up the boys in conventions and other places for the re-nomination of the president. We admit that Mr. CURTIS makes a better mugwump than Mr. HARRISON, but Mr. CURTIS should give the boys a chance to pay off some of their political debts. One of CLEVELAND's big mistakes in Missouri was his action in sitting down on MARCKENS E. BENTON.

REPUBLICAN CHANCES IN MISSOURI. The republican party in Missouri has an opportunity, if it has the courage, the patience and the devotion to improve it.

The chance to elect the next governor of Missouri lies within the grasp of the republicans of the state if they will stand together in a campaign, a fight from start to finish, on the issue between old Missouri and new Missouri; the Missouri of the dead past and the Missouri of the golden future.

The weakness of the democratic party in Missouri is in its adherence to old traditions, old methods, in a certain sense, to old men. That is the character the party has outside of the state. It is understood to represent "old Missouri" even "poor old Missouri." That this charge is always and everywhere true is not to be granted, but there is no denying that the charge is made and with a basis of fact.

This being the case, the republican party of Missouri, getting itself together, forgetting the "thousand wars of old," will have a chance for, certainly, an interesting fight and perhaps a victory by moving to strike out that word, "old," and going in for "Grand Missouri" without any other qualifying adjective.

The republican party of Missouri may make itself the medium and representative of that great Missouri which has grown up since the war and the promoter of the greater Missouri which is to be, by speaking for immigration, for goods roads, for the introduction of the newest and best methods of education, and especially of municipal government, for every thing that is new and bright as opposed to systems that are moss-grown and antiquated.

Missouri will be none the worse but all the better for a "free fight." The republicans will wonder a fair on the state by making it such. As a result a good deal of rubbish will be burned up in the flames of the contest. The veteran who has heard of nothing since Civil War resolutions will find that he "lags superfluous on the stage." Nobody will be hurt except somebody who ought to have been dead long ago. All things work together for good for those who really and truly "stand up for Missouri."—Kansas City Star (Independent Democrat.)

A Sound Liver Makes a Well Man. Are you bilious, constipated or troubled with jaundice, sick headache, bad taste in mouth, foul breath, coated tongue, dyspepsia, indigestion, hot dry skin, pain in back and between the shoulders, chills and fever, etc. If you have any of these symptoms your liver is out of order and your blood is slowly being poisoned, because your liver does not act properly. HARRISON will cure any disorder of the liver, stomach or bowels. It has no equal as a liver medicine. Price, 25c. Free sample bottles at A. Brandenberg's drug store.

PITHY, POINTED AND PERTINENT. There's no discount on the cinch that Hill has on the democrats of the House.

The any-body-to-beat Cleveland democrats are expecting an inning in the near future.

The third party in the South is progressing at about the same rate of speed as the white republican party in Texas.

The democrats who talked of an adjournment of Congress by the first of June are not talking on that subject these days.

The proposed Tammany reappointment of New York State is such a plain steal that it is bound to prove in the end to be a boomerang.

If "baby Ruth" looks anything like the pictures of her printed in the New York papers Mrs. Cleveland is probably sorry she ever married.

Congressman O'Ferrall's designation of Cleveland as a lion and hill as a fox was probably pleasing to both gentlemen, as it accords with their own estimate of themselves.

Now that the Grant Monument association has distributed a liberal amount of "taffy," and the corner stone has been laid, how would it do to hustle around and raise the money to build the rest of the monument.

After the first of July the federal revenue officials will gauge all liquors by weight. It does not, however, necessarily follow that drinks will be sold by the pound.

There must be "gold bugs" also in Austria, as a government bill has been introduced in the Austrian Parliament, providing for a nineteen percent premium on gold taken in payment for custom duties.

France appears to have adopted the Jerry Rusk method of dealing with anarchists, and to have found it just as effective as Uncle Jerry did when he was Governor of Wisconsin.

That proposed international silver conference appears to be worrying some of those who have been doing the loudest shouting about the necessity for such a conference.

Whenever the administration sees fit to "call down" Great Britain, for its acquisition of territory in Venezuela, by an exhibition of the "Monroe doctrine," it will be supported by every patriotic American.

Cleveland says he has doubts about his again becoming the candidate of his party. They are shared by a good many other people, among them David Backwards Hill.

One at present insurmountable obstacle to electing the president and vice-president by popular vote is that one section of the country never allows a popular vote to be cast.

The latest Washington advice says that a new political party is about to be born in the interest of free coinage, and that it will nominate Senator Teller for president and Col. Polk, of the Farmers' Alliance, for vice-president. Another bluff.

There is something illogical about the position of Senator Palmer, of Illinois. He says in one breath that "Cleveland is the logical candidate" of his party and in the next announces himself a candidate. The Senator would take his logic into executive session with his tongue.

"Harrison will be a candidate." "Harrison will not be a candidate." "Cleveland will be a candidate." "Cleveland will not be a candidate." These are positive statements quoted from the columns of the Metropolitan newspapers, the editors of which are supposed by some people—themselves among the number—to know everything.

Perhaps the executive committee of the National Farmer's Alliance did not intend to announce the final exit of that organization as a political factor when it said in the recent secret circular sent to members: "Never has there been as little concert of action among the officers of the different states. If it allowed to continue, must be fatal," but that is the impression the language leaves upon close observers.

Pears' Soap

Why is Pears' Soap—the best in the world, the soap with no free alkali in it—sold for 15 cents a cake?

It was made for a hospital soap in the first place, made by request: the doctors wanted a soap that would wash as sharp as any and do no harm to the skin.

That means a soap all soap, with no free alkali in it, nothing but soap; there is nothing mysterious in it. Cost depends on quantity; quantity comes of quality.

All sorts of stores sell it, especially druggists; all sorts of people use it, especially those that know what's what.

MRS. GRAHAM'S Cucumber AND Elder Flower Cream

Is not a cosmetic the sense in which that term is properly used? It is a cosmetic, and by daily use gradually makes the complexion even and clear, white, and radiant. It is a constant protector from the effects of sun and wind and prevents the formation of wrinkles and freckles, and keeps the face as fresh and young as it is. It cleanses the face far better than soap and water, nourishes and builds up the skin, and thus prevents the formation of wrinkles. It gives the complexion a soft and smooth look, and keeps the skin as soft and supple as it can be.
